Assessment and Rating assistance for determining the rating earned:

To use the chart below and some BOLD statements are marked as "DNO":

- 1) Put the number of BOLD "proficient" earned by your candidate in each core area in the top parentheses. 
- 2) Enter the number of those BOLDs that you observed in the denominator.
- 3) Your answer will be the 'official's score'
- 4) Multiply your "official's score" by the number in the "Weighted" column and enter the result in the "Final Score" column

If not using this chart, the rater will determine if the candidate has met enough of the bolds to earn the rating. (As a guideline, note the percentage of bold skills for each rating level) You may want to check your rating by using the chart to confirm

Assessment and Rating assistance for determining the rating earned:

To use the chart below and some **BOLD** statements are marked as "DNO":

- Put the number of **BOLD** "proficient" earned by your candidate in each core area in the top parentheses.
- Enter the number of those **BOLDS** that you observed in the denominator.
- Your answer will be the 'official's score'
- Multiply your "official's score" by the number in the "Weighted" column and enter the result in the "Final Score" column

If not using this chart, the rater will determine if the candidate has met enough of the bolds to earn the rating. (As a guideline, note the percentage of bold skills for each rating level) You may want to check your rating by using the chart to confirm
